

PAYAL

Software Engineering Intern — Frontend Developer

Rajpura, Punjab, India +91 9914763215 payaljindal537@gmail.com linkedin.com/in/payal31b0ab336 — github.com/Payal-24

Education

Chitkara University, Punjab	2024 – 2028
B.Tech in Computer Science Engineering	CGPA: 9.01/10
Government Girls Senior Secondary School (PSEB)	2024
Class XII	

Technical Skills

Programming Languages: C++, Java, C, JavaScript
Frontend Development: HTML, CSS, React, Tailwind CSS
Core Computer Science: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Computer Networks
Tools: Git, GitHub, VS Code, Figma

Projects

AR-Based Home Decor Visualization Website

- Developed a web platform enabling users to visualize home decor products in real environments using AR integration.
- Built interactive frontend components and optimized user interaction flow.
- Improved rendering performance and overall user experience.

Movie Search Watchlist Chatbot

- Developed a movie discovery platform using React and external APIs.
- Implemented search, recommendation and personalized watchlist functionality.
- Integrated real-time movie metadata and streaming availability information.

Personal Portfolio Website

- Designed and developed a responsive portfolio website showcasing projects, technical skills and achievements.
- Built reusable UI components and optimized layouts for desktop and mobile devices.
- Integrated GitHub, LinkedIn and contact workflows.

UI/UX Design System High-Fidelity Prototype

- Designed responsive interfaces using Figma Auto Layout and reusable components.
- Created scalable component variants and a structured design system.
- Maintained consistency in typography, spacing and visual hierarchy.

Achievements

- Solved 180+ Data Structures and Algorithms problems across multiple topics.
- Maintained a CGPA of 9.01/10 in B.Tech Computer Science Engineering.
- Regularly participate in coding contests and technical challenges.
- Strong foundation in problem solving, algorithms and software development.
