

PAYAL

Rajpura, Punjab, India

payaljindal537@gmail.com ♦ github.com/Payal-24 ♦ linkedin.com/in/payal-31b0ab336/

PROFESSIONAL SUMMARY

B.Tech in Computer Science student at Chitkara University with a strong foundation in Data Structures and Algorithms (180+ problems solved). Skilled in C++, Java, and modern frontend development using React. Experienced in building interactive web applications and designing structured UI/UX systems using Figma.

EDUCATION

B.Tech in Computer Science Engineering	2024– 2028
Chitkara University, Punjab CGPA: 8.69 / 10	
Government Girls Senior Secondary School Class 12 (PSEB)	2024
Government Girls Senior Secondary School Class 10 (PSEB)	2022

TECHNICAL SKILLS

Programming	C++, Java, C
Web Technologies	HTML, CSS, JavaScript, React, Tailwind
Core Concepts	Data Structures, OOP, Algorithms, Problem Solving, Computer Networks, DBMS
Design Tools	Figma (Auto Layout, Components, Variants, Design Systems)
Tools	Git, GitHub, VS Code, Git Pages

PROJECTS

AR-Based Home Decor Visualization Website

- Developing a web platform that enables users to visualize home decor products in real environments using AR integration.
- Implemented interactive UI components and frontend logic for real-time product interaction.
- Optimized rendering performance and improved user interaction flow.

UI/UX Design System & High-Fidelity Prototype (Figma)

- Designed a responsive interface prototype using Auto Layout and reusable components.
- Built scalable component variants and structured a consistent design system.
- Maintained typography hierarchy, spacing system, and color consistency.

CODING PROFILE

- Solved 180+ Data Structures and Algorithms problems across topics including Arrays, Strings, Linked Lists, Stacks, Queues, Recursion, and Dynamic Programming.
- Regularly practicing algorithmic problem solving and complexity analysis.
- Participate in coding contests and technical challenges on Unstop.
